Mentone Senior Center, Library, Community Park & Trail System Project

Supervisor Hansberger is pleased the Board approved an amendment to the contract for additional design, inspection and construction administration services last week, that keeps the project on track toward completion.

This \$4.6 million project will provide a new Senior Center, Library and Community Park at 1331 Opal Avenue in Mentone. The 7,443 square foot facility is under construction and the park will include turf areas, shade structures and an orange grove commemorating and honoring the area's local citrus growers. Completion of the project is scheduled for August 2007.

"This is truly a unique project, bringing services for our most vulnerable population – our seniors and our youth – together in a cost effective project," said Third District Supervisor Dennis Hansberger. "By combining the library, senior center and park at the same place, we are getting the most 'bang for our buck'," Hansberger said.
